2. This agreement does not cover parts or labor when failure is due to insignificant amounts of oil due to late delinquency in payments, running out of oil (Will-Call) customers, failure of the customer to maintain proper boiler water level or pressure, parts or controls on wood or coal burning systems, customer setting thermostat too low to call for heat, air in radiators or baseboard radiation, customer leaving emergency switch off, radiant heating coils, domestic water coils, piping not related to the heating system, or any manufacturing defects.

3. This agreement does not cover repair or replacement of obsolete parts, such as certain zone valves, circulators, and combustion chambers which are not available through regular sources of supply.

4. This agreement does not cover acts of God, fire damage, flooding, or water damage except that which is caused by ordinary wear and tear.

5. Rich's Oil Service is not responsible for the replacement or repair of any damage caused directly from; or related to frozen pipes or the actual repair or replacement of frozen pipes.

7. The length of this agreement is for 1 year. It will automatically renew at that time, unless we are notified of cancellation in writing 30 days prior.

8. The agreement is valid only for residential and light commercial heating systems with a maximum firing rate of 2.0 GPH.

9. This agreement will pay up to \$1,700 toward the replacement of your tank, once tested and qualified for the TankSure® Program, if a tank leak occurs subsequent to this test due to internal corrosion, if a tank leak occurs due to a manufacturer's defect, or if a non-leaking tank is identified for proactive replacement. While we cannot guarantee that a leak will not occur or your tank will not fail after testing, we are providing these new services with the hope that by testing and monitoring, we are offering a long-term proactive tank replacement program for our customers. Accidental damage is not covered by the TankSure® Program. The TankSure® Program does not cover environmental cleanup, property damage, waste disposal services, or other damages or losses caused by a tank leak or system failure even if the tank has been tested and qualified ultrasonically and is enrolled in the TankSure® Program.
